

# FIRST GEAR

## Do you work with 16 – 19 year olds interested in a career in the motor trade?

In partnership with Leeds City Council, the Learning Skills Council and local employers Nacro Training are running a new programme of courses aimed at young people who are seeking a career in the motor trade but don't have sufficient qualifications or experience.

All learners work towards the ABC Award in Motor Vehicle Studies and Health and Safety qualifications and are supported with their literacy and numeracy skills. Made up predominately of practical workshop learning the course aims to offer young people a realistic look at the different mechanics careers available to them. This, combined with work experience at one of our many garage placements, offers young people a fantastic opportunity to progress into sustainable training, employment or further education.

This is a roll-on-roll-off course with weekly starts so flexible start times are available to suit

**All overalls and personal protective clothing are provided free of charge**

### Information for Applicants

- All applicants must meet with the Course Leader before starting
- There are no entry requirements, though a strong demonstrable interest in a career in the motor trade is essential
- Young people must be NEET to be eligible
- Courses range in length to a maximum of 150 hours
- Learners can choose between applying for EMA\* (up to £30 per week) or receiving an Attendance Bonus of £20 cash per week
- Learners completing 3 weeks receive a £20 bonus
- Learners completing an accredited qualification receive a £20 bonus
- Learners progressing to a positive destination receive a £50 bonus
- There are no fees or charges
- Learners receive a free travel pass each week
